NARR/REFERENCE A, JOINT TRAVEL REGULATIONS//

1. Purpose. This message establishes the new deployed per diem rates for Marines deployed to NAS Sigonella.
2. Background. NAS Sigonella is divided into two separate locations. Location 1 (NASSIG 1) is on the North side of the base and remote to all main base amenities. Location 2 (NASSIG 2) is on the South side of the base with direct access to all main base amenities. Both locations have a government lodging and government messing available at no cost to the member. Both locations have access to laundry and potable water.
3. Action. Per the reference, the Incidental Expense portion of the rate of deployed per diem for both locations on NAS Sigonella is \$3.50 effective 26 April 2016, regardless of the rate reflected on the member's orders. Travel vouchers will be processed for payment of the deployed per diem citing this message if the orders reflect a different rate. This settlement procedure will continue until a letter designation code can be created within MCTFS and programmed with the appropriate line of accounting. A future TAN will be released when that action has been completed.
4. This message has been coordinated with HQMC MPO and MISSA.
